Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commandation of its magical effects and niedleal virtues. We speak in this matter "WHAT WE DO KNOW," after ten years experience, and pledge our reputation for the fulfillment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrupis administered.

This valuable preparation is the prescription of one of the most experienced and skillful Nurses in New England, has been used with never falling success in
